If you are a company or self-employed individual, or even just someone looking to do something online then come by and see us.

We have been designing websites since 2006. We will not only help you get a visually appealing website, but help you with content, pictures, wording, terms of service, privacy policies, e-commerce, search engine optimization and more!
Check us out today!

Introducing a reliable new computer source for you in your neighbourhood

Keeping it Real since 2006

If you are looking for a solid source for your computer needs then visit Real-Hosts Canada. We offer unique services for your home, or for your office.

Real-Hosts Canada has been growing since its conception in 2006. Originally based as a Website Hosting company we offer great services such as Unlimited Emails, Unlimited Databases, Unlimited Mailing Lists, Unlimited Domains Hosted, 24/7 Tech Support and more.

In 2009, Real-Hosts Canada went under sale and new management was formed. With this forming we expanded our services, now including dedicated servers, On-Site Tech Support, and more. Plus the addition of our famous Referral Program! This is where even if you are not a customer you can earn cash just for sending your friends our way. We do not award points, or credits, but just simply a 20% commission sent to you. If you send more than 5 of your friends then your percentage raises.

As of May 17th, 2010 we have been operating in our new office. This office has given us the opportunity to offer cost-effective computer repairs. With this opportunity we can offer to fix your computer whether it be a hardware or software issue. If you are unsure of your problem then give our office a call, it's toll-free. Unfortunately due to the demand we cannot offer home visits. Have no fear, we do have monitors, keyboards, mice and all other extras at the office. All you need to do is bring the tower (brain) of your computer.

Do you know nothing about your computer? Willing to learn more? Then come by our office and ask for lessons. We can help to guide you through the beginning steps of learning how to get the best out of your computer. All lessons are done on a 1 on 1 basis. No classes are available.

Sincerely,

Real-Hosts Canada Management
